**ATTENTION: Mr Roger Baylis Duffield**

Dear Sir,

**RE: APPLICATION TO CULTIVATE AND MANUFACTURE CANNABIS BY PLANDAI BIOTECHNOLOGY SA (Pty) Ltd**

SAHPRA (MCC) conducted an inspection to cultivate cannabis and manufacture cannabis API on 04 July 2018 at Plandai Biotechnology in White River. The inspection was conducted by Mr Mlungisi Wondo and Mr Griffith Molewa.

An inspection report dated 24/07/2018 was forwarded to you. A response dated 08/08/2018 was received by our office.

A number of consultative meetings between yourself and SAHPRA occurred; wherein it emerged that your company wishes to conduct research on phytochemicals derived from the freshly harvested cannabis plants and this would enable you to validate your processes.

Based on the aforesaid, you are therefore advised to:

- Submit an application for conducting research on cannabis for the purpose of extracting phytochemicals;
- Source and acquire the cannabis material for the duration of the research period, provided that such material is sourced from an approved and registered cannabis grower.

Should you still be interested in cultivating and manufacturing cannabis, Plandai has to advise SAHPRA of its intentions.

Should you require any clarification, please do not hesitate to contact our office.

Yours faithfully

**Chief Executive Officer**
